Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14 and 16, as far as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 14-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lange (5588274). Lange (5588274) in view of Evans (3565210).

Lange discloses a modular unit constructed and arranged to define a four sides box like structure wherein each side has planar portions 18 defining at least one side aperture 22; the side aperture includes a circular shape. The planar portions defines a plurality of side portions 24/25 protruding inwardly into the at least one side

aperture and wherein each of said side portion defines a plurality bolt receiving apertures 26 thru the planar portions.

Lange lacks the each surface of the side apertures having four symmetrically opposed side portion coplanar with the planar portion and protruding inwardly into the side aperture and the side portions define an aperture to receive a bolt.

Evans discloses the each surface of the side oval apertures 34 having four symmetrically opposed side portion coplanar with the planar portion and protruding inwardly at 30b into the side aperture and the side portions define an aperture to receive a bolt 31. See figures 5 and 6 of Evans. In view of the above it would have been obvious to modify Lange to include the flanged opening as recited so that not portion of the fastener extends above the upper surface of the planar portion.

The size and shape of the modular units and the apertures have been considered a matter of choice depending on the intended use of the structure. Applicant has merely claimed a four sided box with maybe but not really not oval type apertures.

Allowable Subject Matter

Claims 2-12 and 17-20 are allowable over the prior art of record.

Response to Arguments

Applicant's arguments with respect to claims 14-16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
